

Game 2: Roll the Dice

Game 2: Roll the Dice

The purpose of this game is to get good at random distances. Just like you will face on the golf course. Every shot will be different so it challenges your ability to dial in on a number.

Rules of the Game

The goal is to find out your average proximity, just like the professionals. Following the grid below, hit the 30 shots as illustrated from that yardage and record your footage from the hole.

After the 30 shots collate your total and find your average. If your shot is outside of 30ft, declare it 31ft

45	83	75	94	52	59
71	98	46	57	47	91
42	65	57	97	46	55
53	99	78	51	65	74
58	49	88	61	54	90
					Total Average ft.

Constraints

- Vary the trajectory of your flight e.g. low, medium, high
- Change the club, e.g. use a 9 iron
- Vary the lie for each shot
