

## Game 5: Be a Mid-Ranger

### Game 5: Be a Mid-Ranger

The very best putters hole over 40% of mid-range putts (7-15ft). How do you match up? The goal of this test is to improve putts from 7-15ft, which will have a big effect on your ability to score well. At this distance, over 40% is world class, high 30% is a very good level, whereas any score in the 20's is poor. This game challenges your ability to read a green, and balance the line and pace of the putt.

### Rules of the Game

Place 9 tees down on the green marking out 7 to 15ft putt locations (use a tape measure). Make sure each putt is different i.e. downhill, left to right etc.... The goal is to go around the 9 putting locations and hole no less than 5 out of 9 putts.

### Constraints

- You are not allowed to miss 2 putts in a row, otherwise game over, and you start again.
- To complete your score, you are not allowed to miss the final putt. If either happens, you must start again.
